MM Docket No. 92-290  
RM-8127

To: Chief, Allocations Branch,  
Policy and Rules Division  
Mass Media Bureau

**COMMENTS AND COUNTERPROPOSAL**

McLean County Broadcasters, Inc. ("MCBI"), by its attorneys, hereby submits its Comments and Counterproposal in response to the FCC's Notice of Proposed Rule Making (DA 92-1598, released December 14, 1992) ("NPRM") in the above-captioned proceeding. In support thereof, the following is stated:

1. In the NPRM, the FCC proposes the allotment of Channel 299A to Colfax, Illinois, as that community's first local aural service. For the reasons set forth below, MCBI submits the following counterproposal for consideration in this proceeding:

<u>Community</u>	<u>Present</u>	<u>Channel</u> <u>Proposed</u>
Fairbury, Illinois	---	299A

2. The attached Engineering Statement of Paul Dean Ford, P.E., demonstrates that Channel 299A can be allotted to Fairbury, Illinois, at assumed coordinates of: 40° 45' 20" N; 88° 22' 00" W; in full compliance with the separation standards of Section

73.207(b)(1) of the FCC's Rules. The proposed predicted 70 dBu contour from the assumed transmitter site will fully encompass the City of Fairbury, Illinois. The proposed allotment at Fairbury, Illinois, would provide that community with its first local aural service.

3. Since the proposed allotments of Channel 299A at Colfax and Fairbury, Illinois are mutually exclusive, the FCC must choose from among the proposed allotments based on the criteria set forth in Revision of FM Assignment Policies and Procedures, 90 F.C.C. 2d 88 (1982). The proposed Colfax and Fairbury allotments would each constitute a first local aural transmission service at their respective communities. Thus, the other public interest factors associated with the proposed allotments must be examined. Fairbury had a 1990 U.S. Census population of 3,643, which is over four times as large as the 1990 U.S. Census population of Colfax of 854 people. Moreover, Fairbury's population increased by 2.8% from 1980 to 1990, while the Colfax population declined by 7.2% from 1980 to 1990. Clearly, the City of Fairbury is more deserving of a first local aural transmission service than the Village of Colfax.

4. In the event that the FCC adopts MCBI's counterproposal and allots Channel 299A to Fairbury, MCBI will promptly file an application for a construction permit for Channel 299A at Fairbury. In the event that MCBI is awarded a construction permit for Channel 299A at Fairbury, it will expeditiously construct a new FM station on the channel.

WHEREFORE, for the foregoing reasons, MCBI respectively requests that the FCC allot Channel 299A at Fairbury, Illinois.

Respectfully submitted,

MCLEAN COUNTY BROADCASTERS, INC.

Fairbury, IL 299A

Affidavit and Engineering Statement (continued).....

The coordinates for Fairbury, Livingston County, Illinois were determined from the Dataworld ATLASSCAN program to be as follows:

40-44-42      88-30-42

A site was assumed at the following coordinates that meets all spacing requirements of the Rules and provides a minimum of 70 dBu over the entire City of Fairbury, IL:

40-45-20    88-22-00

McLean County Broadcasters, Inc. requests the allotment of FM Channel 299A to Fairbury, Livingston County, Illinois instead of to Colfax, McLean County, IL as proposed in RM-8127 and will file application for the facility when the allotment is made.

Attached, is a map showing that the proposed predicted 70 dBu contour would encompass the City of Fairbury, Illinois from the assumed site. The contour was determined using the NGDC 3 second point terrain database for the assumed Fairbury, Illinois site and maximum Class A facilities.

FM Channel 299A can be allotted to Fairbury, Livingston County, Illinois in accordance with all F.C.C. Separation Requirements and without disruption to the Table of Allotments as shown by the attached FM Spacing Study from the assumed site by Dataworld, Inc.

Affidavit and Engineering Statement (continued).....

On the basis of the information presented herein, it is requested that the Commission Amend the FM Table of Allotments by adding the following:

Fairbury, IL 299A

Paul Dean Ford, being first duly sworn upon oath, deposes and says that he is a Consulting Engineer at West Terre Haute, Indiana; Registered as a Professional Engineer in the State of Indiana; that he has been retained by McLean County Broadcasters, Inc. to prepare this engineering portion of this FM allotment request to the Federal Communications Commission; that he has personally prepared this report requesting the allotment of FM 299A to Fairbury, Livingston County, Illinois instead of to Colfax, McLean County, Illinois; that all facts contained therein are true of his own knowledge, except where stated to be on information or belief, and as to those facts, he believes them to be true.

  
Paul Dean Ford

Subscribed and sworn to before me this 27th day of January, 1993.
